©Vera V. Mainz and Gregory S. Girolami 1998

Kendall, James Pickering

1889 - 1978

DEGREE: MA

DATE: 1910

PLACE: Edinburgh

TEACHER/RESEARCH ADVISOR: Walker

studied ionic dissociation by conductivity methods and the use of freezing point measurements to examine the formation of addition compounds in solution; developed ionic migration methods for separations work; studied the viscosities of binary mixtures and the heats of vaporization of liquids.
