2014's American Chemical Society Division of the History of Chemistry's Citation for Chemical Breakthrough awards

The University of British Columbia, Department of Chemistry has been selected to receive one of 2014's American Chemical Society Division of the History of Chemistry's Citation for Chemical Breakthrough awards. This award program honors publications, patents and books that have made breakthroughs in chemistry and the molecular sciences that have been revolutionary in concept, broad in scope, and long-term in impact.

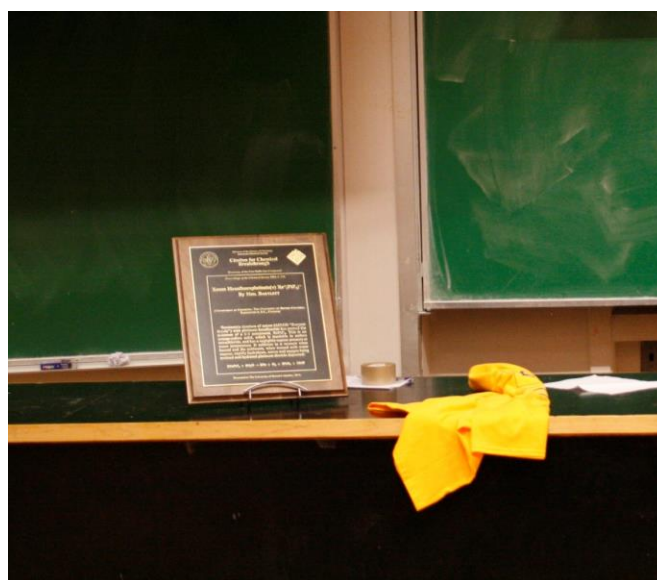

We are being honored for:

N. Bartlett, *Proceedings of the Chemical Society*, 1962, 6, 218.
