

According to Professor Maris Turks,

“The award plaque is situated in the Faculty of Materials Science and Applied Chemistry, Riga Technical University.

“On July 26th, 2013, the street on which the Faculty is situated was renamed in honor to Paul Walden (on the occasion of his 150th anniversary). Due to Latvian orthography and declination, it is written as “Paula Valdēna iela” and its international version is “P. Valdena Str.”

“So, the present address is as follows:

Faculty of Materials Science and Applied Chemistry
Riga Technical University
P. Valdena Str. 3
Riga, LV-1048, Latvia

“It is interesting to note that the award plaque for the work of Paul Walden is placed in the building which is on the street bearing his name.”
