

The Citation for Chemical Breakthrough Award plaque for the Molina and Rowland 1974 paper on atmospheric ozone destruction by chlorofluoromethanes. This hallway is located in the offices of the Department of Chemistry, University of California at Irvine, in their administrative office area on the First Floor of Natural Sciences 2, Room 1120. The plaque to the right of the CCB Award plaque honors the “Outstanding Chemistry Student of the Year” and is presented by the Orange County Section of the ACS (see below). To the left of the plaques are photographs of the Department Staff.
