

Forbes Raymond Koehler & Harriet Spelly-Otis Koehler SCHOLARSHIP APPLICATION

The purpose of this scholarship fund is to enhance the educational opportunities and experiences for students under the departments within the School of Chemical Sciences. Opportunities to attend workshops, schools and other educational events that will enhance your research will be considered.

Examples of events include but are not limited to:

- ACA summer school on crystallography
(<https://acasummercourse.net/>)
- Workshops at national labs like Argonne
(<https://www.anl.gov/cnm/workshops>)
- Workshops at conferences like the Experimental NMR Conference
(<https://www.enc-conference.org/Conference-2023>)

Awards will include full or partial support depending on the number of applications received and amount of funds available. Note that this scholarship is distributed directly to the applicant, so the applicant is expected to pay for the event using the distributed scholarship. A research fund cannot be reimbursed directly with the scholarship fund.

Applications will be considered on a rolling basis with application cut-off dates for scholarship distribution of: Jan 5, June 1 and Oct 1.

Please submit completed applications to Danielle Gray (dgray@illinois.edu)

Please fill out the information below completely:

Application Date: _____ Name: _____

Phone Number: _____ Email: _____

UIN number: _____ Principal Investigator: _____

Department: ChBE Chem Date(s) of event: _____

Name of the event you wish to attend (*please also provide a link to the event*):

Describe how attending this event will benefit your research:

Provide a budget for attending this event (*including registration/travel/accommodations*):
