Snyder, Harold Ray

1910 - 1994

DEGREE: PhD

DATE: 1935

PLACE: Cornell

TEACHER/RESEARCH ADVISOR: Johnson, J. R.

investigated the synthesis of amino acids, heteroaromatic systems, organoboron compounds, and natural products; studied the reactions of amines, indoles, quaternary ammonium salts, anils, and polyphosphoric acid; investigated mechanisms of organic reactions, esp. polymerization, Diels Alder reactions, and Mannich reactions.
